Profile

Aspiring Software Engineer with a strong foundation in Data Structures & Algorithms, object-oriented programming, and full-stack web development. Currently pursuing B.Tech in Computer Science (AI/ML) at VIT Vellore (CGPA: 9.55/10).

Education

- **B.Tech in Computer Science and Engineering (AI & ML Specialization)**
Vellore Institute of Technology, Vellore
Cumulative GPA: 9.55 | Expected Graduation: May 2028
- **Senior Secondary (Class XII)** – Greenway Modern School, CBSE Board, 2024
Percentage: 90% (PCM with CS)
- **Secondary (Class X)** – Mount Litera Zee School, CBSE Board, 2022
Percentage: 96.8%

Projects

- **MineGuard AI – AI-based Rockfall Prediction System** 🔗
 - Built a mining safety prototype to monitor simulated sensor data and identify potential rockfall hazards.
 - Developed an interactive dashboard with real-time-style alerts and hazard status indicators.
- **CampusCart – Student Marketplace** 🔗
 - Built a responsive web application for buying and selling products within a university campus.
 - Developed authentication, product listings, shopping cart, and profile pages using HTML, CSS and JavaScript.

Technical Skills

Languages: C, C++, Python, Java, JavaScript, SQL, HTML, CSS

Frameworks/Libraries: ReactJS, Pandas, NumPy, Matplotlib, Seaborn

Tools & Technologies: Git, GitHub, VS Code, MySQL

Concepts: Data Structures and Algorithms, Object-Oriented Programming

Certifications

- **Google Cloud Certified – Associate Cloud Engineer** 🔗 Google Cloud *Issued: Aug 2026 | Expires: Aug 2029*

Events Participated

- **Reverse Coding** – Participated in a competitive reverse engineering challenge that involved analyzing program outputs and reconstructing the underlying logic to solve complex coding problems.
- **CookOff** – Competed in a 12-hour multi-round programming competition that enhanced problem-solving skills and strengthened understanding of Data Structures and Algorithms.
- **Devsoc '26 Hackathon** – Participated in a 48-hour hackathon and contributed to developing an identification system for refugees while exploring blockchain-based decentralized identity solutions.
- **Workshop** – Attended a workshop conducted by The AI-ML club on Artificial Intelligence and Machine Learning fundamentals and gained hands-on experience.

Achievements

- Solved **180+ problems** on **LeetCode** 🔗, enhancing problem-solving and algorithmic skills.
